

HARSHA VARDHAN NAIDU DASIREDDY

Python Backend Developer

Hyderabad, Telangana - India

✉ harshavardhannaaidu23@gmail.com

☎ +91-8328426817

Summary

Detail-oriented and motivated Python Backend Developer with 6 months of practical experience in developing and maintaining web applications. Proficient in Python, Flask, and MySQL, with a strong foundation in backend development, database management, and application logic. Familiar with front-end technologies including HTML, CSS, and JavaScript, enabling effective collaboration with UI/UX teams. Committed to writing clean, maintainable code and continuously improving technical skills in a professional environment

Education

Bachelor Of Technology in Computer Science And Engineering,
Koneru Lakshmaiah Education Foundation
CGPA: 7.7

Vaddeswaram, Andhra Pradesh
2020 – 2024

Board Of Intermediate (MPC)
Pragati Junior College
CGPA: 7.35

Tanuku, Andhra Pradesh
2018 – 2020

Secondary School Certificate (SSC)
Bhashyam Public School
CGPA: 8.3

Tanuku, Andhra Pradesh
2017 – 2018

Technical Skills

- Languages: Python, SQL
- Web Technologies: HTML, CSS, JavaScript
- Frame Work: Flask
- Databases: MYSQL
- Tools & Platforms: Git, Git Hub

Internship Experience

Python Backend Developer Intern
BA Talks Pvt Ltd., Madhapur, Hyderabad
Oct 2024 – Mar 2025

- Designed and implemented using Python and Flask to facilitate seamless communication between the frontend and backend systems, ensuring efficient data handling and user interactions.
- Developed and optimized database schemas using MySQL, including creating tables, indexes, and relationships, to ensure data integrity and fast query execution for the admin dashboard
- Collaborated with the frontend team to integrate dynamic features using JavaScript, HTML, and CSS, ensuring responsive and interactive UI components that align with backend logic
- Mentored junior team members by explaining backend concepts, debugging techniques, and best practices, fostering a collaborative learning environment

Projects

Project Name: Forecasting and Japanese Examining Stock Market Behavior
(Nov 2023 – April 2024)

- Developed an intuitive and visually appealing user interface using HTML5, CSS3, and JavaScript, ensuring a seamless user experience for analyzing stock market trends.
- Evaluated application performance, identifying bottlenecks and optimizing code to improve speed and efficiency of data rendering and interactions
- **Technologies used:** Python, HTML, CSS, JavaScript

Project Name: Admin Orbit
(Nov 2024 – Mar 2025)

- This dashboard page serves as a centralized hub for users to access essential functions. It provides quick navigation to various reports, project details, complaints, and employee-related information. The design ensures that users can easily manage and track work-related activities
- **Technologies used:** Python, MYSQL, Html, CSS, JavaScript
- **Git Hub Link:** <https://github.com/2604Harsha/dashboard>

Personal Traits

- Strong Communication
- Team Work
